Farm Progress Announces Innovations Awards Winners

René Carpentier, Show Chair for Canada's Farm Progress Show announced today the winners of the annual Innovations Program.

The winners in the Gold category for 2014 are:

Power Pin Inc. – New on road hitching system for farm trucks moving farm equipment.
Intragrain Technologies Inc. – Bin Sense Fan Control

The winners in the Sterling category are:

Clean Seed Capital Group – Clean Seed CX-6 Smart Seeder (60ft drill)
EZlid – EZlid
Sulvaris Inc. – Vitasul
Sunnybrook Welding & Machine Shop Ltd. – New Holland CR Tri-Frame Concave
Agtron Enterprises Inc. – The Legend
Agri – AG Growth International – The GULP

Each year, out of the hundreds of exhibitors, Canada's Farm Progress Show recognizes a few special achievements in developing innovative agriculture products and services. Each of these innovations has been qualified by Canada's Farm Progress show Innovations Committee as a unique, new or improved product in the agriculture industry.

"It is a pleasure and an honour for me to congratulate these companies that represent the best in agriculture technology. I want thank all the companies who chose to participate in the Innovations program this year. I and the Innovations committee have enjoyed seeing all the details of these amazing products. Innovations and new products is what makes this a great trade show, the biggest tradeshow in the country," Carpentier said.

The program this year is sponsored by Farm Credit Canada and Innovation Saskatchewan. The innovations display is located in the Agribition Building – Hall #9.
